We will be on Earth after 3 hours.
We are close enough to see Earth by bare eyes now.
Bare eyes ?

Is there any where we can see?
There are two w ndows by the ext The w ndows are very th ck but you w ll be abel to see
Let s go see
Me too
Everyone seems to be excited
Obv ously it s the r f rst t me seeng Earth
Will our l fe be better on Earth father ?
I hope so But I don't know really
it s been 16 years s nce I left Earth
Anyway Mars I d prefer you call me dad Ike you d d unt l recent
I am not a k d anymore

Mars come here
It s very pretty
It looks d fferent
from the mages
we saw
Ok
That s Earth
Pretty
We were told
nuclear wars
occurred, but isn't
It still pretty ?
Yeah
It s like a
blue gem
I am sure that
there w ll be what

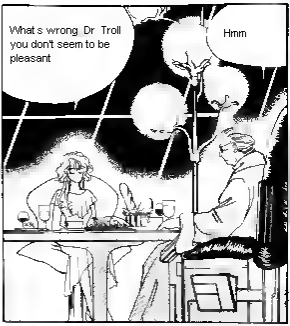
What
Kitty 101 s dream ?
D d she enter my dream ?
No it wasn't that

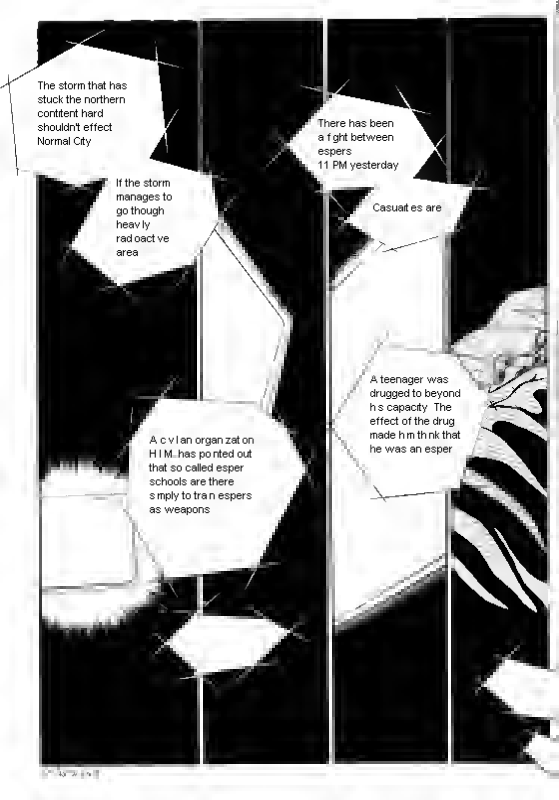
www.jaimes.com



Yes
?
What s go ng on
Why d d I dream about Kitty 101 ?
It doesn't look like my drema was nvaded
But it was certa nly her memory when she was com ng to Earth
No way could I ever dream it
That means Kitty 101 has started do ng someth ng
Cons der ng her personality she s act ng too qu et espec ally when her heath s almost fully restored for now
She should not be underest mated

D dn't you say that Mars was pat ently do ng exerc se ?
She was But recently she hasn't been do ng anyth ng
She has been spend ng most of t me n her room

Is that so ?
Shouldn't we start g v ng her m ss ons ?
No
We have to tell her about Jean
There is only one task for her to do ...



The storm that has stuck the northern contitent hard shouldn't effect Normal City
If the storm manages to go though heav ly rad oact ve area

Mars..
Mars ?
Mars ..... ?

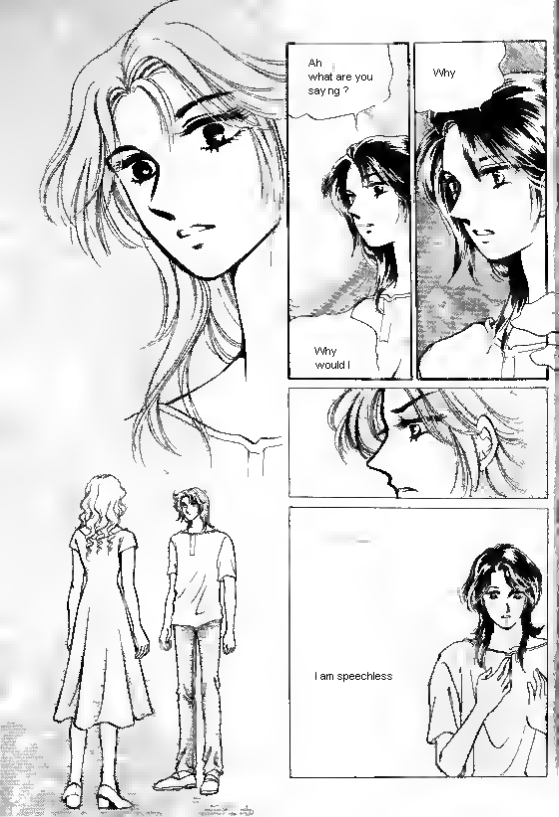
Recent dreams
It did seem like it was Mars dream
About our past the memories
But it didn't look like she was sending them
But
it was really touching
What is she thinking ...?
It's very unusual that Mars hasn't rushed here already
Jean ..

Sion..
I was told that you wanted to see me
Yes, we haven't seen each other since ... you went berserk.
I I am f ne but
Don't worry about it it s okay
Is she m nd ng it?
Are you ok now ?

I am sorry about before
I sometimes get very ser.ous headaches
It rather makes me extremely anx.ous
It just makes my m.nd very anx.ous w.thout a reason
Anx.ous enough not to be able to res.st
I don't know why
When do you get headaches?
Kitty 101

Yes ...
Whenever it is about Kitty 101 ...
That's when ...
About Mars
Yes
Yes Mars
Whenever I call her by that name
Whenever I remind myself that I have to kill her
It makes me anxious
Probably because she killed me
I was told so
There is no other reason
www.jaimes.com

Whenever I rem nd myself
that I must k ll her
t makes me anx ous
If you are
real S on n
any way
If you are
That anx ousness
Must be
what s left of
S on I used to
know
Maybe you
don't want to
k ll her
Unl ke how you
were told



Ah
what are you
say ng ?
Why
Why
would I
I am speechless

It's really you, Son
Can I hug you ?
What ?
Ah

Because I could not stop you

I blamed myself

And I blamed Mars and thought I could never forg ve her

The n ghts I spent subb ng due to love and hatred

S on

Whether you are real or not,

Please stay as who I know for th s short moment

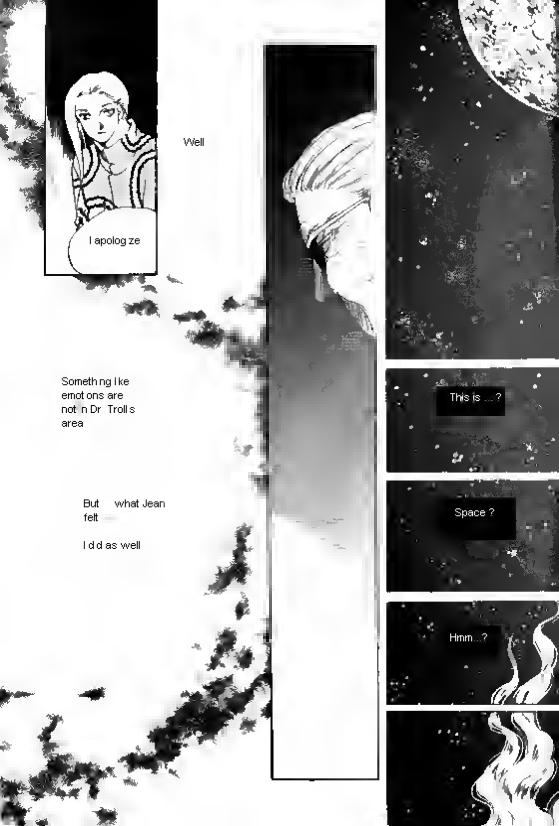
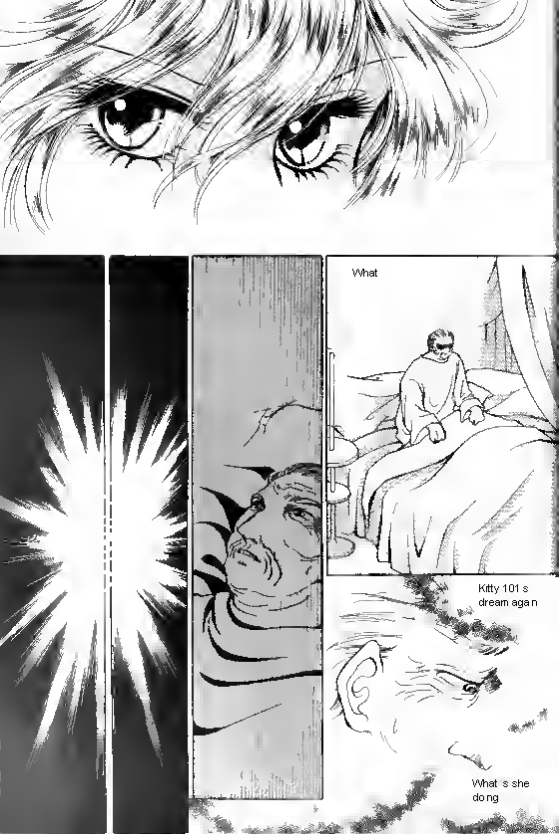
Don't you thnk much about us humans are myster ous Dr Troll
I don't belev n mracles and such
If there s a resut there s always a cause
That female Jean appears to be quite smart But she could have been dr ven by her own memor es and emot ons
I doubt she bel eves that it s S on she used to know completely
Who knows
One could say that she s act ng how she s now due to the fact that the r bond was strong before
Even that s not very conv nc ng ether though
Don't speak to me l ke that Mart e
t s nsult ng

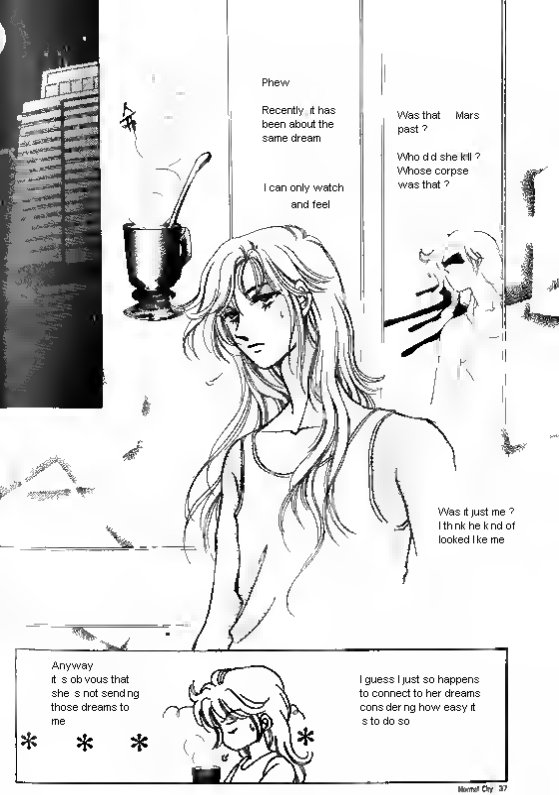


I apolog ze
Well
Someth ng like emot ons are not n Dr Troll s area
But what Jean felt
I d d as well
This is ...?
Space ?
Hmm...?

Kitty 101 ?
What ... ?
What's this sensation.
This sensation is not mine .... This is ...
Rage ... despair ...
She's looking at something ...
.... Whose body ?

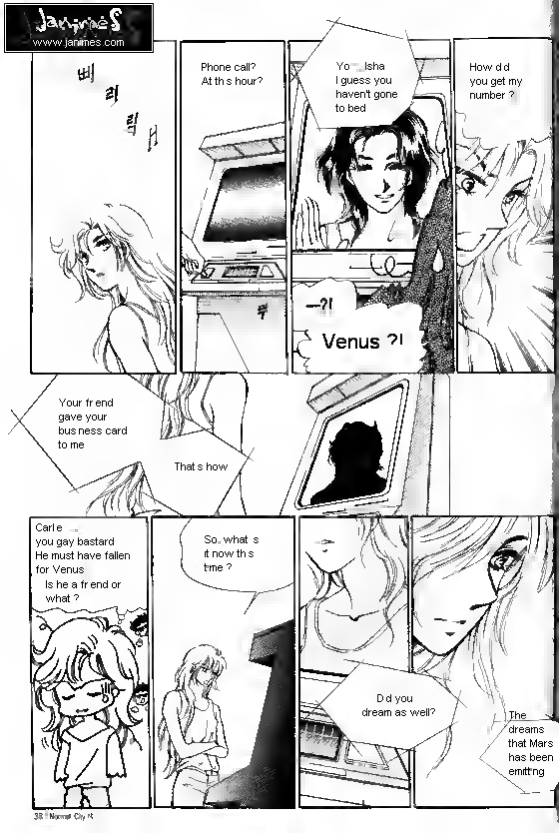


What
Kitty 101 s dream aga n
What s she do ng



Phew
Recently it has been about the same dream
I can only watch and feel
Was that Mars past ?
Who did she kill ? Whose corpse was that ?
Was it just me ? I think he kind of looked like me
Anyway it s obvious that she s not sending those dreams to me
I guess I just so happens to connect to her dreams consider ng how easy it s to do so

Jaminés
www.jamines.com



삐 리 릭 !!
Phone call? At th s hour?
Yo Isha I guess you haven't gone to bed
How d d you get my number ?
-?!
Venus ?!
Your fr end gave your bus ness card to me
That s how
Carl e you gay bastard He must have fallen for Venus Is he a fr end or what ?
So, what s it now th s time ?
D d you dream as well?
The dreams that Mars has been emitt'ng

You too ?
R-ght
He sa d he met
her n dreams as well
D d she send the dreams
to ?
Do you th nk
the dreams were
sent to you ?
—J1
Uh ?
No
I could only watch
Does that mean
that she s dream ng
alone ?
Or are the dreams
meaning something
for someone ?

To whom ... ?
Mars
What are you try ng to do
What s she try ng to say ?
I am sure she s emtt ng the dreams for certa n some

Mars s not wak ng up ?
I bel eve she has ntent onally fallen herself nto deep sleep
It s unusual for her that she tr es to get nto someone s dream hard
The only reason I can see s that she s tryng to enter someone s dream someone who s rejeckng her to enter n order to gan acess to nfomat on
For what purpose I don't know
For now I ve connected to her R nger solut on
It s been 4 days So, there s noth ng to worry about for now
We w ll watch for some more days

So Mars might be trying to enter someone's dream forcefully
Does this mean it's very hard to enter the someone's dream ?
Could be If the someone doesn't know Mars at all or like I said if the someone rejects Mars
it's not like she can enter anyone's dream freely
Though we call it dreams, what she does is basically connecting her brain wave to another wave
And there are a lot that have yet to be explained about that scientifically
Mars once said this to me
One of reasons that she does not like to enter others dreams is that once she gets into their dreams she gets to see their weakness and what they fear
And

They are just as dangerous as their fear and weakness are
That was why she didn't like entering others dreams she said
Does make sense
I just hope she doesn't enter my dreams
I understand why you as her father fear her
Maybe
A reason why I fear her s that
two opposed facts one s that I have to call myself her father and
another s that I have to see her from scientific manner perhaps I was afraid of a case that she might find out the other side of me
www.jaimes.com

Father and daughter
I don't know anymore
I hope that she realizes that the time we've spent together is still there and that cannot be changed
She's not my real daugher. So, I admit that there were times I tried to see her as my daughter
And I did feel for her as well
I hope that even if she does realize my other side, she will understand my point of view

Are you all right? You haven't been eating much lately
Hmm
I haven't been given the list for next batch of espers to take care of

Ah
No task for a while
I want you to stay by
me all the time for now
Yes
?
I don't know
what's going on
This is making
me feel tired
What are you
doing Kitty 101

Continuous dreams
What are you trying to say, Mars ...

She d d look l ke she was
recover ng well at that t me

I wonder how she s do ng
now though

I do want to go see her

But I cannot th nk
of anyth ng to say

I feel l ke my bra n
has been w ped

janimes
www.janimes.com

Go for it
She is in no condition to love anyone. She is just standing alone.
I don't know... It's not like I don't want to go for her
it s just that I really have no idea how to begn th s
I m ss her
I m ss her

When I saw her sleep ng
n Ga form I wondered if
he was dead
And even checking breath ng
Whenever Mars
d sappeared on me
I fet Ike she slpped
away through my
fngers
I hoped that she d
come to me aga n
and ask for my help
I was wait ng
for such a moment
to come
I hate to admit
But she does Ike
you

Yes .., I thought so, too ...
Perhaps, after knowing Mars and Gai were the same person, I simply thought that way.
If we both like each other what's there to stop us ?
I will simply look forward Mars from one sided view

... Venus is not really wrong here ...

I was afraid of losing her . .
My feelings,
My obsession,
Of los ng someone who I can g ve all those to
Everything that I've felt about her,
I was afraid
It wasn't me ?
Isn't th s be ng self sh ?

Jaranes
www.janimes.com

Well she s
n coma aga n
Eh? D d someth ng
happen ?
No it s not
that
I bel eve she put
herself nto such
a status
I really don't know
what she s th nking
now
By herself ?
So the cont nuous
dreams recently
That makes
sense
What ?

What are you say ng ?
You saw Mars dream ? D d she enter your dream ?
Tell me what k nd of dream it was
No it wasn't for me
I could only observe the dreams
Only observe ?
But I d dn't feel any dreams
How can you ?
I was told that my DNA was used when the sc ent st named Dr Troll was mak ng Mars DNA
Maybe that s why

In fact ... I've been seeing Mars in Gai form ever since I was a child...
?!
So, you are the ... !
There is someone I want to find on Earth...
Yes ?

Well
a long t me ago,
she used to say that she
was see ng someone n
her dreams
But she d dn't talk about
it much So I have
completely forgotten
about it unt l now
She sa d that
she was go ng to
look for someone
on Earth
Look for
someone ?
She talked about
it only momentarily
... But she had such
a nice expression on
her face that it was
left in my memories.
Haha
So..that was
you
I thought she forgot
about it ...
I see...
I see now.

I am not sure that Troll has that much powers
Besides, I can't die easily.
I've tried to kill myself before. It wasn't easy to do.

You are a scary person Mars
You realized that now ?
My heart
I feel as if it s leaking
yes
Leaking enough to drown my own heart
After I found out that Gai and you were the same person,
It became clearer for me ...

What scares me is your mind that is not afraid of death.
And yet your mind doesn't accept anyone or anything.
It looks to me that you are trying to keep a distance from everyone so that you can say good bye to them anytime.
I've had such a period like that before... But yours is different...
Yours is sadder and scarier.
You are even more miserable than me.

No ...

I am not sure whether we are the same k nd or not
I
Yes, f you th nk I am m serable I probably am
But our d fference s probably the amount of quest ons that need to be answered n our head
If that s realty for you I cannot change that
That is all I can say.

Be ng born or made and l ve on
Isn't all about breath ng and just l ve naturally
Earth, Normall City
The society, man kind, class, ranks, espers, artificially born people with tempered DNA, male, female ... basic things ...
Desire to kill, guilt, moral sense, pride, timidness, desire to destroy, isolation, heroism, jealousy, rage ....
And , yes, even so-called love.

I feel everything they, who call themselves "Human", feel. Yet, they simply define me "a monster".
And when pretty much everyone point at you and say so, I have to accept it.
Besides, even looking at myself would make me whisper to myself that I am "a monster".
I do not fit in the frame that "human" has made !
Then what am I ?

If I am really a monster,
let me live like a monster.
Let me fight and fight
until I am worn out.
But, why ?!
Why do I have to
be forced to fit
into the frame ?!
Why do I have to
feel what they
exactly feel ?
Why ?
They say I am not
even a human !

Why does it have to be like this !

Don't make me weak
Don't do th s to me Isha
I have th ngs to do now
I don't know whether it s mportant or not
I just have to do it
Don't make me weaker

Why does that have to effect your way of life ?
None sense !
You are alive!
And you have to live on!
Fine ... ,
let's say you think that way
How about me ?!
I am not satisfied with just dreams !
I want to see you and feel you.
And I want to live with you !

I would l ke to get a map

Yes..but only author zed people are allowed to enter the fac lity We are open after 10
Oh a pretty gir!

I need one now.
Why don't you have coffee with me until 10 ?

Wow. I've never seen an esper teleport from this close

Jaminés

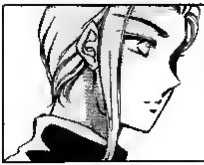
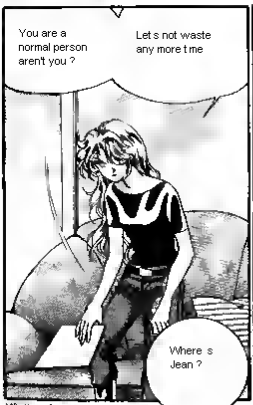
I was told that you are a high ranking officer ?
I don't know how to read this map
I didn't expect you to show up quietly
Would you like a cup of coffee ?
Thanks but no thanks
I am sure you've seen a lot of fights between espers

I am sure you know that fights between powerful epsers are quet
For those who enjoy watching their fights won't be so fun. All they do is probably glare at each other
Do you know what they do ?
They look up and down on their opponent and think of what they want to do to them
They see through your flash. They track veins to your heart and destroy them
Even if they look fine outside inside will be one big mess
That is how they fight
Like Missel's case.





You are a normal person aren't you ?
Let s not waste any more t me
Where s Jean ?

Where on th s map ?

Right here

How about Troll ?
Whether you tell me or not, it won't change the fact that I will confront him eventually.

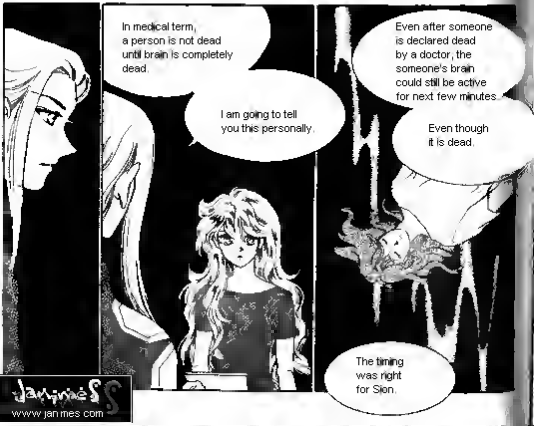
He should be in here.
Next where is the fake Son?



In medical term, a person is not dead until brain is completely dead.

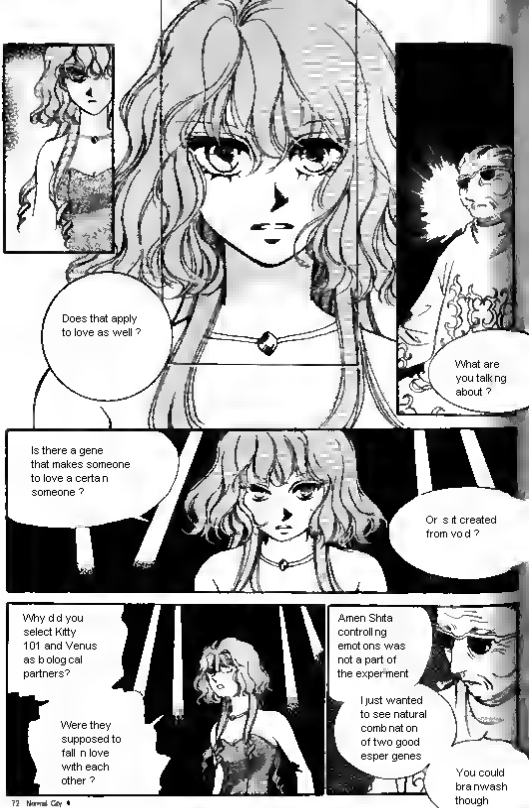
No need to send anyone. She is coming here on her own.
Martie's idea is working. This is way too easy.
The method is the same as before. ESP is not unlimited.
She will lose quite amount of overall powers after a battle with Slon.
Are we just going to sit here, doctor ?
Wait until then.

www.janimes.com

I won't blame or hate you even if it's very short
Thanks to you, I've felt so much freedom
what's the big deal about being a monster or a human?
That doesn't change a fact that the powers are under her possession and free to use however she wants
To me Kitty 101's psychical troubles are just grumbling
That's why I want to finish her badly
I think that the reason for this difference is that...
One that was given powers regardless one's will
The other was given powers by own will



Does that apply to love as well ?
What are you talking about ?
Is there a gene that makes someone to love a certain someone ?
Or is it created from void ?
Why did you select Kitty 101 and Venus as biological partners?
Were they supposed to fall in love with each other ?
Amen Shita controlling emotions was not a part of the experiment
I just wanted to see natural combination of two good esper genes
You could brainwash though

It wasn't done to Kitty 101
But Venus was told
that h's partner was
Kitty 101 ever snce he
was young
Whether how
he polshes it
in the end it did
not matter
Whether he liked or not
the idea could have been
engraved n h s grain
Because one s ded
feeling s enough to
create events when
it comes to men and
women
It seems Venus
likes one s ded love
That is what I believe
That s not love
Let s not go into
that
But that doesn't explain
why he is so persistent
about Kitty 101
According to you
Venus shouldn't do
acting like he is now

His mind leaned so much toward Kitty 101 There's no other way to put this, but love
I wanted to kill Kitty 101
Kill her and make him sad and feel despair
I wanted Kitty 101's corpse right below my foot so that I will feel supernority and victory
But he won't look at me anyway
I am just holding it now
But why wouldn't it work ?
I can answer him anytime
